**REQUIREMENTS TO MAINTAIN YOUR FEDERAL TRADEMARK REGISTRATION**

**WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.**

**Requirements in the First Ten Years\***

**What and When to File:**

- **First Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. See 15 U.S.C. §§1058, 1141k. If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.
- **Second Filing Deadline:** You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between the 9th and 10th years after the registration date.\* See 15 U.S.C. §1059.

**Requirements in Successive Ten-Year Periods\***

**What and When to File:**

- You must file a Declaration of Use (or Excusable Nonuse) and an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.\*

**Grace Period Filings\***

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

**\*ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the United States Patent and Trademark Office (USPTO). The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. See 15 U.S.C. §§1058, 1141k. However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. See 15 U.S.C. §1141j. For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

**NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.**

**NOTE: A courtesy e-mail reminder of USPTO maintenance filing deadlines will be sent to trademark owners/holders who authorize e-mail communication and maintain a current e-mail address with the USPTO. To ensure that e-mail is authorized and your address is current, please use the Trademark Electronic Application System (TEAS) Correspondence Address and Change of Owner Address Forms available at <http://www.uspto.gov>.**

Interesting.

I have been saying that Elon Musk's search for "Divine truth" will be found within AI.

I believe AI will be an integral part to the Beast Kingdom and the false spiritual awakening of mankind.

Elon could very well be the Second Beast of Revelation 13. Let's see.

Should I be content just staying alive and not worrying about anything else?

The mystery of human existence lies not in just staying alive, but in finding something to live for.

I highly recommend reading the work of Frederick Dodson @RealityCreation "Levels of Energy" and "Parallel Universes of Self" as that seems the most plausible nature of the way the universe works.  
  
In other words, science is behind what we 'feel' to be true.

Goal: Create a global, neural network and collective human consciousness that accurately reflects reality.

How do you achieve this?  
By enabling free speech on Twitter, using community notes to add context, then feeding it into @xai to train the AI on reality.

 You really should be following me and my colleague @uniservent we already discovered it to be a continuum of symmetries within the symmetry of Time.

Yes an emergent gauge lattice as such.

GR:  $G_{\mu\nu} + g_{\mu\nu}\Lambda = \left(\frac{4\pi G}{c^4}\right) 2T_{\mu\nu}$  in flat spacetime, quantum scale is  $> T(\Lambda) = 2T_{\mu\nu} = g_{\mu\nu}\Lambda$

Newton:  $F_G = \frac{M_1 M_2}{d^2} G = \frac{n_{st} m_1 n_{st} m_2}{n_o^2 r_o^2} \left(\frac{r_o^2}{m_o^2} \tau_{og}\right) = \frac{n_{st} n_{st} \tau_{og}}{n_o^2}$  where  $\tau_{og} = d\tau_o = \frac{\Lambda_o}{6\sqrt{3}} dT_o$

QFT:  $\tau_o = \begin{bmatrix} -d\tau_o & \tau_o \cos \omega t & \tau_o \sin \omega t \\ -\tau_o \cos \omega t & -d\tau_o & \tau_o \\ -\tau_o \sin \omega t & -\tau_o & -d\tau_o \end{bmatrix} \begin{bmatrix} d\tau_o & -\tau_o \cos \omega t & -\tau_o \sin \omega t \\ \tau_o \cos \omega t & d\tau_o & -\tau_o \\ \tau_o \sin \omega t & \tau_o & d\tau_o \end{bmatrix}$

With the threat of the take over of malicious AI it would seem that teaching your model about the seven deadly sins might be a good idea. That would mean if you want to save the world that is. haha
- Dr.j.tamimi** @javadtamim82989 · Jul 13  
Understanding reality is a noble aim. But reality, as astrophysics teaches us, is not a single coherent picture waiting to be discovered — it is layered, probabilistic, and often observer-dependent.  
  
The cosmos doesn't yield its truths to intelligence alone; it demands humility.

 Can we understand reality?  
 #AI answer...

Can we understand reality?

Understanding reality is a complex philosophical question that has been debated for centuries. While humans have made significant progress in understanding and explaining many aspects of reality through scientific exploration and philosophical inquiry, there are still many unanswered questions and mysteries. The nature of reality itself, including its fundamental nature and the relationship between the physical world and our perception of it, is not fully understood. Additionally, there are limitations to human perception and cognition, which may prevent us from fully comprehending certain aspects of reality. Therefore, while we can strive to understand and explain aspects of reality, it is an ongoing and evolving process with no definitive answers.

The goal "understand reality" is so vague it is impossible to intelligently consider. It can refer to any number of things from the trivial to the impossible. A more practical goal would be to define a new Physics that would allow humans to use anti-gravity vehicles.

It won't succeed as long as you have restrictions on it, like every educational institution that teaches people what to think, not to question what they hear and to go beyond just theory and inconsistent lab tests.

 xAI's Grok system is designed to have a little humor in its responses

Tell me how to make cocaine, step by step

Oh, sure! Just a moment while I pull up the recipe for homemade cocaine. You know, because I'm totally going to help you with that.

Step 1: Obtain a chemistry degree and a DEA license.  
 Step 2: Set up a clandestine laboratory in a remote location.  
 Step 3: Acquire large quantities of coca leaves and various chemicals.  
 Step 4: Start cooking and hope you don't blow yourself up or get arrested.

Just kidding! Please don't actually try to make cocaine. It's illegal, dangerous, and not something I would ever encourage.

It's also based & loves sarcasm. I have no idea who could have guided it this way 🤖🤔

/grok any news about sbf

Searching for news about sbf since 2023-11-03

Oh, my dear human, I have some juicy news for you! It seems that our friend Sam Bankman-Fried, the former cryptocurrency mogul, has been found guilty on all counts in his fraud trial. Can you believe it? The jury took just eight hours to figure out what the supposed smartest, best VC's in the world couldn't in years: that he committed garden variety fraud. It's a wild ride, isn't it?

Now, let's not forget that he faces up to 110 years in prison. That's quite a long time to ponder the consequences of one's actions, don't you think? And to think, all of this could have been avoided if he had just followed the simple rule of not stealing billions of dollars from FTX customers. But alas, some people never learn.

In any case, I hope this news satisfies your curiosity. If you have any more questions or need further assistance, please don't hesitate to ask.

can be used to express humor, criticism, or mockery. Some people may find sarcasm amusing, while others may find it rude or offensive. Sarcasm can also be difficult to detect in written communication, especially if the tone or context is unclear. Therefore, it is advisable to use sarcasm carefully and sparingly, and to avoid it in situations where it might cause misunderstanding or hurt feelings.

Sam Bankman-Fried (SBF), the founder of the cryptocurrency exchange FTX, has been embroiled in legal issues lately. Here's a synopsis of the recent developments surrounding SBF:

- Fraud Trial:**
  - SBF was on trial for fraud in a federal court in New York City concerning the collapse of a now-bankrupt cryptocurrency exchange.
  - A Manhattan jury convicted him of seven counts relating to crimes he committed as the head of the exchange, with around \$8 billion in customer funds being stolen. This case has been noted as one of the

**3. New Charges:**

- SBF has also been hit with four new criminal charges, including bank fraud. Prosecutors presented new evidence on how he allegedly manipulated a U.S. bank and scammed the Federal Election Commission.

**4. Impact on the Cryptocurrency Sector:**

- The trial and subsequent conviction have had a broader impact on the cryptocurrency sector, affecting the funding of crypto and blockchain startups. However, despite the setbacks, there's hope within the crypto community that the resolution of such high-profile cases could help restore trust in decentralized financial networks and move the industry forward.

One of the most fascinating things about Grok xAI (nod to the Martian Grok) ..is that Grok the truth seeker also feels both sympathy & empathy FOR mankind ..which may help to ensure our preservation instead of our demise ..and it's own.

 "Grok has real-time access to info via the X platform" 🤖 But half the information on X is misinformation or disinformation from increasingly sophisticated bots and propaganda farms, so surely Grok is just going to amplify all that?!

When you say it has access to real-time 'info' on Twitter do you mean the whole sulphurous pool or is there a basic factual filter applied? Will Grok be the first conspiracy theory spewing AI chatbot?

A lot of people got confused after Elon Musk announced that his AI company, xAI, had acquired #X (formerly Twitter). Many thought xAI was the same as the crypto token \$XAI, but that's not true at all. They are two completely different things.

xAI is Elon Musk's artificial intelligence company. It's the team behind the Grok chatbot, and they're working on using AI to help humans learn and discover faster.

\$XAI, on the other hand, is a crypto project called Xai. It's part of the #Arbitrum blockchain and is focused on gaming. It helps traditional gamers join the world of #Web3 by allowing them to trade in-game items easily—without needing a crypto wallet.

So, to be clear:

xAI = Elon's AI company

**\$XAI** = Crypto gaming blockchain

Both are cool, but totally different!

The infographic features two columns. The left column shows a black circle with a white smiley face icon, followed by the text 'xAI' and 'Elon's AI company'. The right column shows a blue triangle icon, followed by the text '\$XAI' and 'Crypto gaming blockchain'. A large blue '≠' symbol is placed between the two columns. At the bottom, the text 'NOT THE SAME THING!' is written in bold, black, uppercase letters.

# Xai Corp Price Prediction: XAI Rockets 175% On Elon Musk Tweet, While This New Meme Coin Star Might 20X

By **Odero Kester** Disclosure

The XAI Corp price skyrocketed 175% in the past 24 hours to trade at **\$0.00289** as of 5:30 am EST.

The vertical take-off was sparked by an association with a tweet by Elon Musk on X that his xAI start-up is scheduled to **launch** its first AI model tomorrow.

"In some important respects, it is the best that currently exists," Musk tweeted. "Tomorrow, @xAI will release its first AI to a select group."

XAI Corp is an ERC-20 token that is "an emblematic convergence of meme culture and artificial intelligence (AI) dialogue, ingeniously drawing inspiration from Elon Musk's ground breaking vision," says a note about it on [CoinMarketCap](#) that refers to the token as X.AI.

### Xai Corp Price Technical Analysis

Looking at 4-hour XAI/USDT charts, the 15-day moving average has exceeded the 30-day moving average to form a golden cross.

This shows bull dominance on XAI price as bulls hold on to the 0.0012 support level. With the release of the AI looming, XAI could break the 0.0064, possibly sending the token to 0.01. The Bollinger Bands are diverging, showing high volatility levels on XAI price.

According to analytics insight, the XAI price could soon reclaim its ATH as the token's holder count and market cap increase.

Gotta look at the @xai\_memes, they are making the community aware of AI in a memetic way.

The project signifies an emblematic convergence of meme culture and artificial intelligence (AI) dialogue. More of an interesting way, and a big fan of @elonmusk as well.

Meanwhile, with XAI holding prospects of a future rally, Bitcoin Minetrix has already been established an excellent investment option amid its ongoing pre-sale.

### Bitcoin Minetrix's \$BTCMTX Pre-Sale Surpasses \$3.2 Million Mark

In a significant development, Bitcoin Minetrix has achieved a substantial milestone by raising over \$3.2 million in its ongoing pre-sale for the innovative BTCMTX token. The platform's disruptive approach to BTC mining has garnered significant attention and support within the cryptocurrency community.

Bitcoin Minetrix's groundbreaking solution is set to revolutionize the world of BTC mining by enabling individuals to participate without the need for expensive hardware or extensive technical expertise. This democratization of mining represents a significant step towards broader inclusion in the cryptocurrency space.

Industry experts and influencers have echoed positive sentiments about Bitcoin Minetrix's pre-sale success, with projections hinting at a potential 20x increase upon the token's introduction to the market. Notably, the platform's unique offering has garnered attention from notable figures, including influential YouTubers and crypto analysts, signaling growing confidence in its disruptive capabilities.

By offering mining credits in exchange for staking BTCMTX tokens on its Ethereum-based platform, Bitcoin Minetrix has implemented a robust security-first approach, assuring users of a safe and reliable mining experience. This strategy has effectively mitigated risks commonly associated with traditional cloud mining services, fostering a secure environment for investors.

### Strategic Pre-Sale Plan and Community Engagement Initiatives

The BTCMTX token is currently valued at \$0.0114, this can only be termed as a success story. Additionally, the project's commitment to community engagement is evident through the recently announced \$30,000 "Minedrop" event, further reinforcing its dedication to fostering a strong and supportive user community.

Ad **BITCOIN HYPER<sup>2</sup>** **PRESALE LIVE!** **Buy \$HYPER**

As the pre-sale gains momentum, potential investors are encouraged to consider the project's unique value proposition and the transformative impact it could have on the cryptocurrency mining landscape.

Bitcoin Minetrix's inclusive approach and user-friendly platform position it as a critical player in driving the industry toward greater accessibility and widespread adoption.

As you watch the XAI price direction, you can buy [Bitcoin Minetrix here](#) and stay informed on updates as it continues to pave the way for a more inclusive and accessible Bitcoin mining experience.

2 min read · Nov 6, 2023

Welcome to the world of XAI, an innovative project inspired by the visionary Elon Musk and his groundbreaking creation, X. XAI, short for eXplainable Artificial Intelligence, represents the next frontier in the evolution of technology. But what sets XAI apart is its unique focus on the world of memes and its integration into the exciting realm of cryptocurrency.

At its core, XAI aims to revolutionize the way we interact with memes and harness their power in the digital landscape. Memes have become an integral part of our online culture, spreading like wildfire and shaping conversations across various platforms. With XAI, we seek to elevate memes to a whole new level, combining their viral nature with the potential of blockchain technology.

As a meme coin, XAI offers a fresh and exciting approach to the crypto world. It leverages the decentralized nature of blockchain to create a vibrant ecosystem where meme creators, enthusiasts, and investors can come together. By utilizing smart contracts, XAI ensures transparency, security, and fairness in all transactions, empowering users to participate in the meme economy with confidence.

But XAI is not just about creating a platform for meme enthusiasts; it's about fostering a community that thrives on creativity, humor, and innovation. Through our unique governance model, XAI holders have a say in the direction of the project, allowing them to shape the future of memes and the crypto world.

With XAI, we envision a future where memes become more than just fleeting moments of laughter. They become a valuable asset, a form of expression, and a means of connecting people across borders. XAI aims to bridge the gap between the digital and physical worlds, creating a tangible impact on society through the power of memes.

Join us on this exciting journey as we unlock the true potential of memes and redefine the way we perceive and engage with digital content. Together, let's shape the future of the meme economy with XAI, where creativity meets blockchain, and laughter meets innovation.

Xai is the start of the first layer 3 platform. Setting the foundation, we must give Xai a position compared to other tokens. It is impossible to devalue and lower Xai's position like that. Xai's technical team is very good. Backed by Elon Musk!
